SUMMARY

A detail-oriented Python developer with expertise in frontend technologies such as HTML, CSS, and JavaScript. Skilled in building responsive websites and Python-based applications. Strong problem-solving abilities and a passion for creating user-friendly, efficient solutions. Eager to contribute to a collaborative team and grow within the field of software development.

PROJECTS

Portfolio Website
· Designed and developed a fully responsive personal portfolio using HTML, CSS, and JavaScript.
· Structured the website using semantic HTML for better accessibility.
· Used CSS grid, flexbox, and animations to create an engaging and modern UI.
· Implemented JavaScript for smooth scrolling, dynamic navigation, and form validation.
· Focused on cross-device compatibility to ensure a seamless user experience on desktops, tablets, and mobiles.

Expense Tracker Application
· Built a Python-based command-line application to manage daily expenses without any external frameworks.
· Implemented features to **add, view, delete, and summarize expenses**.
· Used Python's data structures (lists and dictionaries) for efficient data handling.
· Developed a user-friendly CLI to interact with the application.
· Enhanced functionality by allowing category-based expense summaries.

CERTIFICATIONS

Python for Everybody Specialization
University of Michigan
· Learned programming, data analysis, and visualization with Python

EDUCATION

Bachelor of Technology
Rajiv Gandhi University of Knowledge and Technologies, IIIT. · Srikakulam · 2023 · 8.5 CGPA

Intermediate
Rajiv Gandhi University of Knowledge and Technologies , IIIT · Srikakulam · 2019 · 9.24 CGPA

Secondary School Certificate (SSC)
A.P Model High School · Bhogapuram · 2017 · 9.8 GPA

SKILLS

Technical Skills
· **Frontend Development**: HTML, CSS, JavaScript
· **Programming Languages**: Python, SQL
· **Tools & Platforms**: GitHub, VSCode

COURSEWORK

NxtWave CCBP
Online · 2023
· Completed Python development course, including Front-end and Back-end Technologies
